DESCRIPTION OF FRIDAY'S BATTLE  
ON AN OPEN MOUNTAIN.

THE BOMBARDMENT RENEWED BY THE  
TURKS AT SHEPRA PASS—THE RUSSIAN

Nothing has been received from Biela concerning or confirming the reports of the battle there. A Russian official bulletin dated Gorny Studen, Saturday, says: The Turks renewed the bombardment of the Shipka Pass position on Friday from four main positions. At one o'clock in the afternoon they began an assault on the right flank, but were repulsed. They then attacked the left flank and centre and were likewise repulsed. The fighting lasted until night. It is thought that the attack will be renewed on Saturday.

Reuter telegrams from Euekarest say peace negotiations there from the headquarters of the Czaritch at Doline Monastir, think that the Turks will not renew the attack of Friday, but will endeavor to cut the route to Timorova. Chevakel Pasha telegraphs from Orchani on September 22 that Hirdi Pasha, commanding the convey of provisions for Ouman Pasha, arrived at Dabrik, two hours march from Plevna, having defeated fifteen Russian battalions on the way. Ouman Pasha has been requested to make a sortie to establish a junction with this force.

There has also been some fighting at Rostov. The Turkish attack was repulsed by a division of Ahmet Eyub's Corps, and at Verkhaya by two battalions detached from the 1st Army. The Russians maintained their positions, which consist of a series of hills and ravines.

The *Times* Constantinople special, via Syria and London, states that repeated orders have gone out from the Porte that the Geshios shall be brought to Constantinople, but it is feared that the military authorities will not obey, as the Geshios will be executed.

THE FIGHTING AT TATRIKOVNA.

A Russian official bulletin confirms the main parts of the telegraph accounts of the fighting at Tatrikovna.

The *Times*' correspondent at Athens reports that the story of negotiations between the Greek and Russian Governments for an offensive alliance was entirely unfounded, and that the invention has been clearly brought home

the Porte, whose purpose is to secure England's support or toleration in the aggressive war it is meditating towards Greece.
